Personal skills

- Independent in work
- Willingness to learn
- Good communication
- Working in team

Software and IT Skills

ENVI & SNAP **Very Good**
ARCGIS & QGIS **Very Good**
R Programming & GEE **Good**
JavaScript **Good**
Python **Beginner**

Language Skills

French - Native
English - C1
Deutsch - A2

Profile

As a professional in geomatics and ecosystem management, with experience in environmental data analysis, spatial modelling and the development of web-based GIS. I use Earth observation and spatial data (GIS) to analyse the factors that influence and shape sustainable land management. I also provide support for Land management and policy development, to contribute to the implementation of innovative and sustainable solutions.

Working Experience

GIS Analyst (student job)

Aug 2024 - Mar. 2026

PRORAUM Consult, Karlsruhe, Karlsruhe -Germany

- Conducted spatial analysis of urban environmental data to support the city planning initiatives
- Developed spatial data visualisation tools (Raum + Web GIS platform) to manage and visualise urban data
- Automating the analysis process using QGIS Model Builder and a 3D urban simulation model

Research assistant (GIS Tutor)

Nov. 2024 - Apr. 2025

University of Trier, Trier - Germany

- Introduced new master's students to GIS concepts and practical classes
- Provided one-on-one support and guidance to students on GIS software such as QGIS and ArcGIS Pro.

Forest GIS Research (intern)

Apr. 2023 - Sep. 2023

National Forestry Office (ONF), Fontainebleau - France

- Analysed spatial patterns of forest health indicators using GIS and remote sensing data to identify areas vulnerable to dieback.
- Conducted spatial correlation analysis between forest dieback patterns and environmental factors, including soil type, forest species, and sun exposure.
- Developed predictive GIS approach to assess potential forest dieback progression
- Produced detailed maps and visualisations to communicate forest condition trends to research teams and stakeholders.

Environmental GIS officer (intern)

Jun. 2021 - Nov. 2021

Wildlife Conservation Society (WCS), Mbakaou - Cameroon

- Map land use and land use changes in Mbam and Djerem National Park to analyse the impact of agricultural expansion on the park area
- Identify deforested areas and all factors contributing to deforestation
- Collect and analyse wildlife data through a wildlife inventory to assess the impact of deforestation and agricultural expansion on wildlife presence in the park
- Integrate the results into land use zoning negotiations with park authorities and local communities

Environmental Consultant in green coco project

Jan. 2021 – Jul. 2021

Rainbow Environment Consult, Yaounde - Cameroon

- Mapped and analysed land use and land cover changes around the protected forest Reserves of Dja to assess the environmental impact of cocoa and rubber plantation expansion.
- Conducted environmental impact assessments related to mining activities by integrating spatial analysis with socio-economic surveys.

Hobbies

- Sport
- Travel
- Hiking

Education

MSc Geoinformatics specialised in GIS and Remote sensing

Apr. 2024 – Dec 2026

University of Trier, Germany

In-depth study and application of Geographic Information Systems (GIS) and Remote sensing for capturing, analysing, and visualising spatial data

MSc Environmental Science Specialised in Ecosystem Management

Aug. 2022 - Oct. 2023

AgroPraisTech, France

Advanced understanding of ecosystem dynamics and sustainable management practices integrating ecology, forestry, and environmental science principles.

BEng Tropical Forestry

Sept. 2015 - Jun. 2020

University of Dschang, Cameroon

Advanced understanding of ecosystem dynamics and sustainable management practices integrating ecology, forestry, and environmental science principles.

Certification

Environmental and social framework

Feb 2021

World Bank Group

Studied the principles and application of the World Bank Environmental and Social Framework (ESF) in project planning and management.

Drone pilot within a model aircraft association (B2 – B3)

Aug 2025

French Civil Aviation Authority (DGAC)

Operating drones within the B2 and B3 categories in compliance with aviation safety regulations and model aircraft association guidelines.

Community Life

Member of the association “Environnement-votre”
Member of the PST Judo club
